The New York shipbuilding company, with an authorized capital of \$3,000,000, was incorporated at Trenton, N. J., on October 9, to engage in the business of constructing vessels of all kinds. The incorporators are Henry G. Morse and George L. Brown, of Woodbury, N. J.; William G. Randle, of Chester, Pa.; Charles F. Hall and William F. Grouan, of Wilmington, Del.

In San Francisco Hay & Wright have just completed the beautiful schooner Philippine, and this week they will launch the steamer Lilliputian. She is a vessel with particularly graceful lines, and is expected to average 12 knots an hour. She is being built for the Wilder Steamship Company of Honolulu, and is 150 feet long, 30 feet beam and 11 feet draft. The machinery is being built by the Union Iron Works, and the whole work is being supervised by H. Johnson, supervising engineer of the Wilder Company.

The barkentine Archer was cleared at San Francisco October 19 for Hilo with a general merchandise cargo. Among the principal shipments were the following: 825 lbs flour, 170 lbs soap, 160 lbs and 3 c manufactured tobacco, 375 lbs butter, 200 lbs salt, 2 boxes, 1,855 gals and 30 c wine, 172, 147 lbs rolled barley, 6,650 lbs bread, 27 c beans and shoes, 27,331 lbs ham, 25 c and 22 gals whisky, 200 c canned goods, 50 c and 10 lbs soda, 115 pgs beer, 10 c and 10 lbs, 5,804 lbs sugar, 600 lbs lard, 150 pgs groceries and provisions, 15 c paints and oils, 1,415 lbs hams and bacon, 65 c hard ware, 2,350 cks bran, 300 cks middlings, 99 cks wheat, 300 lbs lime, 370 lbs hay, 34 pgs machinery.

WHARF AND WAVE.

An auxiliary gasoline scow for the Hawaii coast trade is building at Matthew Turner's yard at Honolulu. The Lohia returns to the Molokai route next Monday. She has been thoroughly overhauled and painted. The bark Haydn Brown, bark Helen Denny and ship John C. Potter have been chartered to load coal at Newcastle for Honolulu.

Twenty-nine United States Government trans-Pacific transports are due in November at this port from Manila and San Francisco.

A new customs inspector is Dan Vida, who was appointed yesterday to the vacancy made by the promotion of Inspector Henderson. Inspector Lansdale has resigned.

The big fleet of transports due this week will receive quick despatch by United States Quartermaster Ruhlens. Coal is already piled up on the wharves and on the Government scows.

Captain Stover, formerly sailing master of the schooner-yacht Norma, is now first mate of the S. C. Allen, in place of Andrew Johnson, who has taken command of the bark McNear.

The bark S. C. Allen and schooner Mary E. Foster sailed for San Francisco in ballast yesterday owing to lack of sugar in port. The Mary E. Foster sailed through the windward passage.

The cargo of the bark R. P. Rithet, for San Francisco yesterday, consisted of 9,370 bags, 1,930,700 lbs sugar, valued at \$37,198. Captain McPhail took advantage of a fair wind to sail out of the harbor.

The harbor last evening contained but sixteen deep-water sailing craft, the smallest number for some time. A number of coal vessels will arrive this month, and in December the sugar fleet for next year will commence to put in an appearance.

The dredger at the foot of Richards street has already excavated a 30-foot berth alongside of the Waikiki end of Pacific Mail wharf, extending nearly to the plothouse. When the sea wall is reached the dredger will start over again, completing another excavation towards the former site of the King's bouthouse.

The following vessels were up and loading at San Francisco for the islands on the sailing of the Gaelic, October 24: For Honolulu—Steamer Norma, to sail November 1 at 10 p. m.; bark Albert, to sail October 27; barkentine Planter, ship Fort George, bark Mohican, bark Alden Besse, barkentine S. N. Castle. For Hilo—Ship Falls of Clyde.

The schooner Norma is all ready for her cruise to the South Seas. The Norma which sailed for Laysan Island on Tuesday was reported in error as the Norma for the South Seas. Accompanying Commodore Weaver on the Norma is Ben Saylor, the billiardist who goes as secretary for the Commodore on the rest of his trip around the world.

The demand for metal increases the value of old vessels. The Navy Department on October 13 disposed of the single-turret monitors Ajax and Passaic. The former was purchased by H. A. Hittner's Sons of Philadelphia for \$29,567 and the Passaic by Frank Samuel of the same city for \$19,786. The collector Hector was also sold for \$65,150. The appraised value of the three vessels was \$74,000 and they brought \$114,503.

SAN FRANCISCO, Oct. 24.—Among the early arrivals today was a fleet of sugar vessels from the Hawaiian Islands, including the ship Falls of Clyde, the bark Martha Davis, the barkentine W. H. Dimond, the bark Diamond Head, the bark Andrew Welch and the brig Consuelo. The Consuelo made the quickest run of any of them, seventeen days from Mahukona. The sugar season is over and none of the vessels brought full cargoes. The Falls of Clyde reports that in latitude 39.20 north, longitude 141.49 west, she passed a bark in ballast painted black, with double topgallant yards, bound for Puget Sound or Portland; also an iron ship in ballast, painted white ports, main sky sail, in the same position and bound in the same direction. The Dimond sailed from Honolulu on October 5 and had fine weather all the way. She got off Point Reyes last Friday afternoon, but had thick and calm weather until yesterday morning, when a light breeze from the south brought her to port.

U. S. TREASURY SURPLUS.

Proposal to Charge Interest on National Bank Deposits.

(San Francisco Bulletin.)
 At the present time there are something more than \$200,000,000 in the National Treasury. The only service it renders the Government is in the assurance it affords that a possibly diminishing revenue will not cause the Administration serious embarrassment. It is rumored in Washington that Secretary Gage will ask authority from Congress to charge interest on Government deposits in national banks. It is assumed that if the banks paid interest on deposits the opponents of the Administration would see nothing improper in such use of the surplus in the Treasury. There are now, according to Treasury reports, over \$80,000,000 on deposit in national banks, besides the \$200,000,000 in the Treasury. There seems no good reason why a considerable part of this sum should not be earning interest. The Secretary thinks that \$80,000,000 is as much as the banks ought to be allowed the use of without interest, but at present he has no authority to loan money to the highest bidder, or to any bidder, for that matter. The law requires security in the form of national bonds, but as these bonds draw interest while in the Treasury, the banks could afford to pay interest on the money thus obtained.
